

The vitreous enamel surface on the whiteboard is easy to write on and conveys information in a way, which facilitates reading.

The surface retains magnets, is impact-proof and scratch-resistant to ensure maximum durability. The matt surface is also suitable for projection.

The VIP whiteboard has a sliding track, allowing it to be combined with other boards in the range. This is practical and ensures an elegant unity of the design.

VIP Whiteboards

Dimensions in mm

SVitreous enamel steel whiteboards in white, grey or beige for dry marker pens and magnets. Or matt, white vitreous enamel steel whiteboards for projection, dry marker pens and magnets.

Frames in matt, anodised aluminium. The top frame has 1 sliding track for hanging up flip charts, projection screens or flexible boards from the VIP Rail system.

Hidden mounting directly on the wall.

Supplied in bespoke sizes made to specifications up to 5500 mm.

Can be delivered with the DigiScan electronic part, which makes the board interactive.
