

# SMS FLATSCREEN X

## FH1105/ 1455/1955

Quality that stands out – and stands up.

A graceful floor stand that can support screens up to 100 kg. The screen is mounted, and then rotated to a vertical or horizontal position. Ingenious universal fittings that provide simple and secure mounting of the screen, and the possibility to swivel it. The column has been designed such that an electrical socket can be mounted at the rear (optional extra). Shelves and cupboards are available as options (for a DVD player, for example).

The X-series is characterised by simplifying features and an attention to detail. Such as the cable holder where you can easily insert all the cables without needing tools. Or the damped tilt function, available as an extra to allow gentle and safe adjustment. The surface finish has also been given an extra coat.
