

Visionary Electriscreen

The Visionary is the most innovative and installation friendly retractable electric screen available

Visionary Electriscreen

The Visionary is the most innovative and installation friendly retractable electric screen available. The ceiling recessed all aluminum screen housing can be installed and hard-wired during early stages of construction. The ceiling finishing bezel and screen fabric assembly can be installed during the final stages of construction when the building environment is clean and free from contamination. The Visionary features a self-finishing architectural white bottom plate. The recessed screen housing features adjustable drywall flanges to accommodate various ceiling configurations.

The Visionary is available with variety of Stewart's front or rear projection materials. Our exclusive Tab-Guy™ tensioning system ensures a smooth and completely flat screen surface. Matte black over-scan borders* provide a perfectly masked image area.

Microperf X2 is available when acoustic transparency is required (acoustically transparent black drop available upon request).

SPECIFICATIONS

Electronically controlled screen system	Included
Aluminum extrusion housing/case	Included
3-1/4 inch roller tube with insulated drive	Included
Tab-Guy™ tensioning system	Included
Matte black over-scan border*	Included

MATERIAL

Front projection material	Included
Rear projection material	Optional

PERFORATIONS

Microperf X2 THX Ultra	Optional
Acoustically transparent black drop only	Optional

MOUNTING

Recessed/ceiling	Included
Adjustable drywall flanges	Included

SCREEN MOTOR

120 Volt	Included
220 Volt	Optional

SCREEN CONTROL

HVS (high voltage switch)	Included
LVC (low voltage control - includes 3-button switch)	Optional
STI (12V screen trigger interface)	Optional
Quiet electronic drive	Optional

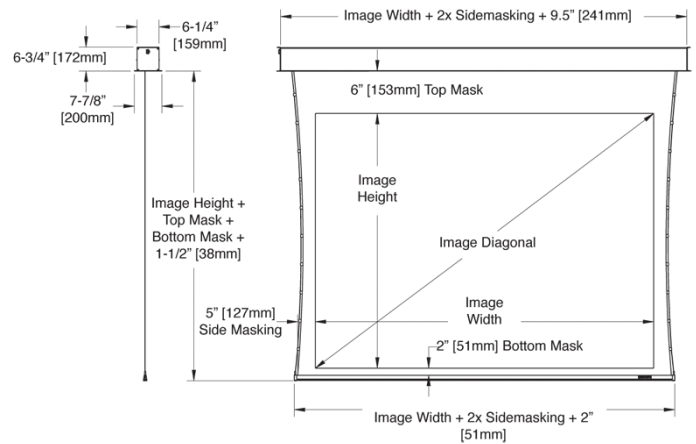

CASE/HOUSING DIMENSIONS

Case height	7.875" (200 mm)
Case depth	6.25" (159 mm)

For custom sizes and gains, please consult the WebSA or your local Stewart representative.

*It is important to request only the amount of black drop required to ensure a perfect image.

Made under U.S. patents 6137629 and 6421175

FEATURES

- 2-piece aluminum screen housing offers ease to be shipped and installed before the screen material/bezel
- Choose the Visionary Grande when a larger screen size is needed
